Mission, vision and values of Dstl

Mission

Our mission describes the fundamental purpose of the organisation in terms of the impact we want to make in the world. It addresses what we are passionate about doing, what motivates us.

Our mission is to create the winning edge for UK forces and government through the best use of science and technology.

Vision

Our vision describes the kind of organisation we aspire to be. It is an expression of what would constitute success in three, five or ten years.

Our vision is to be the indispensable source of science and technology at the heart of defence.

Values

The type of organisation Dstl becomes corporately, and what will distinguish us from others, will be defined by the way we behave as individuals. Our values describe the way we behave, day by day.

- Supporting each other regardless of position in the organisation
- Cherishing knowledge
- Commitment to the public interest
- Responsiveness
- Excellence
- Creativity
